

URBANISM

EXCLUSIVE INNOVATION

The most **POTENT** fat burning formulation
of slimming candy in the market:

SUNZ AND MOONZ

已投保一百万产品责任险
Insured 1 Million Product Liability Insurance

It is specially designed for an urban hustler to obtain a healthy and perfect body shape, especially those with busy and hectic lifestyles with no time for exercise.

It's packed with natural ingredients for an extraordinary fat burning effect, all within a tiny candy. With its remodeled and convenient yet visually appealing packing, slimming is certainly as easy as 1,2,3...

“Spot-slimming” is never a myth now with Urbanism. SUNZ & MOONZ are formulated in such a way to target a specific part of the body with stubborn adipose tissue such as the abdomen, lower abs & glutes. The mechanism adopted is perfectly healthy, effective, and scientifically proven.

As a result, no Yo-yo's effect (weight-loss rebound issue).

Flatter tummy, smaller waist, slender hips and thighs all are now achievable with SUNZ & MOONZ!! You deserve a better body shape.

It has also received reputable accreditations from the following:

What's visceral fat?

Body fat can be divided into subcutaneous fat & visceral fat. Both are harmful to your health if found in excessive amounts.

Visceral body fat is a build-up of intra-abdominal adipose tissue which surrounded our major organs like the liver, kidney, or intestine. Its a.k.a. a “hidden fat” is usually non-detectable by visual examination. They could make up to about 1/10 of your total body fat.

Visceral fat produces more harmful and toxic agents compare to other adipose tissue. This can be dangerous to your health if you have a greater visceral/subcutaneous fat ratio, even you may look thin externally. Clinical studies had shown that visceral fat is one of the major factors that contribute to diabetes, cardiovascular disease, neurodegenerative disease, and other problems.

What causes visceral fat?

Obesity

Lack of exercise

Sedentary lifestyle

Improper eating habit

Hormone's imbalance

Chronic stress

Genetic factor

Alcoholism

Smoking

High-fat diet

Ingredients:

SUNZ :

Morosil™

White Beans

Green Coffee Bean Extract

Green Tea Extract

MOONZ:

PRODUK INOVASI EKSKLUSIF

Gula-gula Pelangsiran Badan yang paling berkesan
SUNZ & MOONZ dengan pembakaran
lemak badan 24/7 dari siang hingga lewat malam.

Mempunyai Insurans Jaminan yang bernilai
sehingga RM 1,000,000.

Dicipta khas untuk golongan masyarakat yang kekurangan masa lapang untuk aktiviti senaman namun teringin bentuk badan yang sempurna dan sihat.

SUNZ & MOONZ diperbuat daripada bahan semula jadi yang membantu dalam pembakaran lemak badan. Dengan pakej bungkusan yang berkonsep “minimalist”, gula-gula tersebut sesuai dinikmati pada setiap masa & di mana-mana jua.

Dicipta dengan teknologi saintifik yang terbaru oleh pasukan RnD Urbansim, SUNZ & MOONZ mempunyai keberkesanan dan keselamatan yang lebih tinggi berbanding dengan produk lain di pasaran.

Produk ini dapat melangsirkan bentuk badan anda dengan berfungsi spesifik pada bahagian badan yang mempunyai kandungan lemak yang tinggi seperti perut buncit.

Dengan Sunz & Moonz, bentuk badan idaman anda sekarang bukan sekadar impian sahaja!!

Apakah Itu Lemak Viseral?

Lemak Di Dalam Badan Kita Dapat Dibahagikan Kepada 2 jenis: Lemak Subkutaneus Dan Lemak Viseral.

Lemak viseral merupakan lemak yang terdapat pada bahagian perut dan membalut organ sekitaran seperti hati, pankreas, usus dan buah pinggan. Selain itu, ia juga menyumbang sebanyak 10% dari jumlah lemak yang terdapat dalam badan kita.

Lemak viseral yang berlebihan memudaratkan kesihatan anda dengan penghasilan “inflammatory factor” yang menyebabkan resitensi insulin, “sindrom metabolisma” dan meningkatkan risiko sakit jantung.

Ia mungkin dijumpai dalam badan mahupun seseorang itu kelihatan kurus.

Penyebab Utama Lemak Viseral

Berat Badan Berlebihan

Stres Harian

Cara Pemakanan Yang Tidak Sehat

Kekurangan Tidur

Penghisap Rokok

Gaya Hidup Yang Tidak Aktif

Faktor Genetik

Ketidakstabilan Hormon
